Director of Product Management  
Vivísimo

## **Vivísimo**

Vivísimo, one of this year's ITxpo solution providers, does search right by combining the simplicity and innovation of consumer search with the flexibility and control of enterprise software. The company works with customers to understand their goals and quickly deploy solutions that maximize the business value of information—with an interface users love. Visit them in booth 1307 on the show floor or their web site at [www.vivisimo.com](http://www.vivisimo.com).

### **What do they do?**

Vivísimo offers a flexible and scalable solution for enhancing information access and knowledge sharing across an organization. Velocity customers and partners utilize the rich set of discovery, personalization and collaboration functionality to provide end-users with greater control over their search experience.

### **What recent customer wins have they had?**

Vivísimo supports clients around the globe including Procter & Gamble. With key initiatives focused around improving information access and findability, Procter & Gamble successfully met their goals by deploying Vivísimo's Velocity Enterprise Search Platform. P&G users can search across all data repositories and identify experts within their organization for increased collaboration and knowledge sharing.
